

**Your Trusted OEM Partner for
Reliable Pollution Control &
Environmental Solutions**

- _____ Bag Filters
- _____ ESP
- _____ Cyclones
- _____ Scrubbers
- _____ Dust Collection System

At ARV Filtration, we offer a comprehensive range of clean air solutions-from dust collection to emission management-supporting a wide range of industrial applications. Beyond equipment manufacturing and supply, we provide complete lifecycle support through genuine spare parts, preventive maintenance, technical services, performance upgrades, and after-sales assistance, ensuring reliable and efficient operation throughout the system's service life.

Products Range

- Bag Filters
- Dust Collectors
- Cyclones
- Wet Scrubbers
- Force Extraction System
- Ostwald Filtration Equipments

Why ARV:-

Powered by our own advanced manufacturing facilities and cutting-edge technology, we deliver durable, high-performance bags and cages with precision and efficiency.

GENUINE SPARES FOR AIR POLLUTION CONTROL EQUIPMENT

Engineered for performance. Backed by expertise. Powered by ARV Filtration.

Choosing authentic ARV Filtration spare parts means:

- Consistent assurance of superior quality
- Precise fitment with original equipment specifications and seamless compatibility
- Reliable, long-lasting performance you can depend on
- Minimized risk of unexpected breakdowns, reducing costly downtime and production losses
- Expert upgrade recommendations for enhanced system efficiency through retrofit and replacement kits
- End-to-end technical support-from spare selection and procurement to installation and recommissioning

Bag Filter Control Panel

At ARV, we offer comprehensive range of ready to install filter media crafted from virtually all types of fibers extending our process expertise and in-depth knowledge of bag filter technology regardless of the equipment origin, we are committed to delivering guaranteed performance with our filters & filter cages. Our Vast experience in the field of design manufacturing & selection of filter media for wide range of applications gives us strong leverage in Dry, Wet & liquid filtration industries.

Electrostatic Precipitators:

- Support Insulator
- Support Insulator Gasket
- Support Insulator Heater
- Bus Duct Seal
- Shaft Insulator
- Hypalon Boot
- Hypalon Boot End Clamps
- Rapper Distribution Panel
- Rapper Coil
- Dry type panel filter
- Rotary Airlock Valve
- Slide Gate Diodes
- Thermostat
- Temperature element / RTD
- Hopper Heater Pad
- Level Switch
- Zero Speed Switch
- Differential Pressure Switch
- Emitting Discharge Electrode
- Collecting Plate / Electrode
- Gas Distribution Screen
- Top & Bottom Hanger / Tadpole
- Access Door
- Explosion Vent / Door
- Expansion Joint
- Anvil Cap
- Alignment Rake
- Grounding Switch
- Pneumatic Vibrator
- Electro Pneumatic Vibrator
- TR Set Components:
 - TRCC Controller
 - Firing Module Card
 - HT and LT Bushing
 - SMPS / Power Supply Card
 - Gas & Oil relay
 - Time Totalizer
- Microtapper Panel Components:
 - Row Card
 - Column Card
 - PLC Card
 - E-Prom
 - Firing Module Card
 - HMI / Display Unit
 - SMPS / Power Supply Card
 - DC Controller/Thyrister Unit
 - CPU-224/226

Bag Filters / Reverse Air Bag Houses / Wet Filters:

- Filter Bags
- Cages
- Venturies
- Proximity Switch
- Rotary Airlock Valve
- DFDV
- Slide Gate
- Limit Switch
- Hopper Heater Pad
- Thermostat
- Zero Speed Switch
- Level Switch
- J Hook Assembly
- Pre Filters
- Poppet Damper
- RA Damper
- Rubber Hose & Clip
- Rubber Beading
- Explosion Vent
- Pressure Switch
- Expansion Joint
- Pulse & Solenoid Valve
- Spark Arrestor
- Access Door
- Pneumatic Cylinder
- Manometer
- Pressure Gauge
- Hepa Filters
- Pressure Transmitter
- Thimble
- Clamp for Bag
- Inlet-cum-Bypass Damper (ICBD)
- Sequential Controller / Timer
- Master Sequential timer (for off-line Bag Filter)
- Temperature Indicating Controller
- Differential Pressure Switch
- Filter Indicating Regulator
- Temperature Element / RTD
- Explosion Door / Rupture Disc
- Control Panel or its components
- Air Slides
